

KEC2024

KOREAN EPILEPSY CONGRESS

JUNE 2024
21 (Fri) - **22** (Sat)
Dragon City Hotel
Seoul, Korea

Important Dates

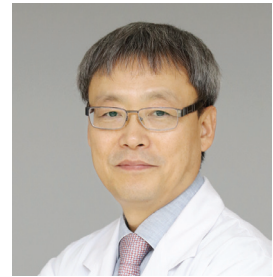

- Deadline for Abstract Submission / May 31, 2024
- Deadline for Lecture Note Submission / May 31, 2024
- Deadline for Pre-registration / May 31, 2024

 <https://www.epilepsykorea.org/2024/>

Invitation

Dear Friends and Colleagues,

It is with great pleasure that we extend a warm welcome to the 29th Korean Epilepsy Congress (KEC 2024) in Seoul. We are delighted to have you join us for what promises to be an enriching experience filled with opportunities for learning, idea exchange, and networking.

KEC 2024 will showcase the latest advancements in science, clinical knowledge, and epilepsy education through a variety of engaging sessions including symposia, lectures, and more programming than ever before. These sessions will offer new and exciting insights into pertinent topics in epilepsy care and research. Notably, our special lectures will feature up-to-date discussions, including a session focused on MEG and its implications for epilepsy research.

Furthermore, we are thrilled to announce the concurrent AES-JES joint symposium, where attendees will have the opportunity to explore state-of-the-art advancements in epilepsy medicine. Additionally, a special symposium on “Comprehensive Epilepsy Care” will highlight the advanced systems implemented by prefectural epilepsy support hospitals in Japan and the National Epilepsy Support Center in Korea. Through these discussions, we aim to contribute to the improvement of treatment modalities, psychosocial care, and epilepsy awareness on a national scale.

We take pride in fostering collaboration between epileptologists and surgeons to ensure the best possible outcomes for patients. Our neurosurgery symposium will cover current methods and procedures related to epilepsy surgery, with a particular focus on SEEG utilization.

We hope that your participation in KEC 2024 will energize and inspire you, providing you with new clinical knowledge, relevant research insights, and valuable professional connections that will contribute to the advancement of epilepsy care. We look forward to welcoming you and trust that you will thoroughly enjoy the meeting.

Thank you.

A handwritten signature in black ink that reads "Dong Jin Shin". The signature is fluid and cursive, written in a professional style.

Dong Jin Shin, M.D., Ph.D.

Congress President, Korea Epilepsy Society (KES)
Chair, Organizing Committee of 29th Korean Epilepsy Congress

Committee

제29차 대한뇌진증학회 국제학술대회
29th KOREAN EPILEPSY CONGRESS

June 21 (Fri) - 22 (Sat), 2024
 Seoul Dragon City Hotel, Korea

Local Organizing Committee	
 <p>Congress President Dong Jin Shin Gachon University Gil Medical Center The Korean Epilepsy Society</p>	 <p>President Kyoung Heo Yonsei University Severance Hospital The Korean Epilepsy Society</p>
 <p>Secretary General Kyung Min Kim Yonsei University Severance Hospital The Korean Epilepsy Society</p>	 <p>Treasurer Jong Hyun Kim Korea University Guro Hospital The Korean Epilepsy Society</p>
 <p>Chair, Academic Committee Ji Hyun Kim Korea University Guro Hospital The Korean Epilepsy Society</p>	

Organizing Committee	
<p>Vice-President Sang Kun Lee Seoul National University Hospital / The Korean Epilepsy Society</p>	<p>Vice-President Byung Ho Cha Yonsei University Wonju Severance Christian Hospital / The Korean Epilepsy Society</p>
<p>Vice Secretary General Donghwa Yang National Health Insurance Service Ilsan hospital / The Korean Epilepsy Society</p>	<p>Vice Secretary General Young Goo Kim Ewha Womans University Medical Center / The Korean Epilepsy Society</p>
<p>Publications Board of Directors Dong Wook Kim Seoul National University Hospital / The Korean Epilepsy Society</p>	<p>Chair, Insurance Committee Mi-Sun Yum Ulsan Medical University Asan Medical Center / The Korean Epilepsy Society</p>

Program at a Glance

June 21st (Fri)

	Hanra A	Hanra B
8:30-9:30	The history of epilepsy: from the early 1900s to the present	Channelopathy in epilepsy
9:40-10:30	(Plenary lecture) Electroencephalography in the intensive care unit and cardiac arrest	
10:40-11:40	Recent advances in functional neuroimaging analysis: application of AI methods to epilepsy research	New antiseizure medications with novel mechanisms for treatment of drug-resistant epilepsy
11:40-12:20	Satellite: To be announced	Satellite: To be announced
12:30-13:30	Oral presentation	Oral presentation
13:30-14:30	The Comprehensive Epilepsy Care: what we can do for people with epilepsy?	Social perception changes regarding epilepsy and direction of support for epilepsy patients
15:00-16:00	Understanding epilepsy through computational modeling of brain networks	KES-JES 1: Pharmacogenomics in epilepsy
16:00-17:00	Disconnective surgery: video presentation	KES-JES 2: Living with epilepsy
17:00-18:00	Lesioning procedures for epilepsy surgery	Women's Issues in epilepsy: controversies in caring for women with epilepsy

June 22nd (Sat)

	Hanra A	Hanra B
8:30-9:30	Puzzling cases of epilepsy	Controversies in status epilepticus: treat aggressively or not?
9:40-10:30	(Presidential symposium) Identification of epileptic network using stereoelectroencephalography	
10:40-11:40	Experimental approaches to the understanding of hippocampus and epileptogenesis	Clinical correlates of interictal epileptiform discharges
11:40-12:20	Satellite: To be announced	Satellite: To be announced
12:30-13:30	Basic principles and usefulness of MEG in epilepsy	New horizons in epilepsy research utilizing SEEG
13:30-14:30	New insights on epileptogenesis and therapeutic discovery from bench to bedside	Promising treatment modality of Lennox-Gastaut syndrome
14:40-15:40	Seizures and epilepsy in autoimmune encephalitis	Overcoming refractory status epilepticus: clinical perspectives and preclinical animal model
15:40-16:40	A critical reappraisal of psychogenic non-epileptic seizures	Cognitive comorbidities in epilepsy: epidemiology, mechanism, and potential therapies

Program Details

제29차 대한뇌진증학회 국제학술대회
29th KOREAN EPILEPSY CONGRESS

June 21 (Fri) - 22 (Sat), 2024
Seoul Dragon City Hotel, Korea

Hanra A (21 st)

Symposium 1. The history of epilepsy: from the early 1900s to the present

Time	8:30-9:30	
Chairs	Byung In Lee (MyoungJi Hospital, Korea)	
Speakers	8:30-8:50	Classification of seizures and epilepsy Sang Ahm Lee (University of Ulsan College of Medicine, Korea)
	8:50-9:10	Discovery of antiseizure medications Sang Kun Lee (Seoul National University Hospital, Korea)
	9:10-9:30	Early history of electroencephalography Steve Chung (University Arizona, Phoenix, USA)

Plenary lecture

Time	9:40-10:30	
Chairs	Kyoung Heo (Yonsei University College of Medicine, Korea)	
Speakers	Electroencephalography in the intensive care unit and cardiac arrest Jong Woo Lee (Harvard Medical School Brigham and Women's Hospital, USA)	

Symposium 3. Recent advances in functional neuroimaging analysis: application of AI methods to epilepsy research

Time	10:40-11:40	
Chairs	Ji Hyun Kim (Korea University Guro Hospital , Korea)	
Speakers	10:40-11:00	AI-enhanced structural MRI: a novel approach to understanding idiopathic generalized epilepsy Kyung Min Kim (Yonsei University College of Medicine, Korea)
	11:00-11:20	Concept and clinical application of DTI in epilepsy research Kang Min Park (Inje University Haeundae Paik Hospital, Korea)
	11:20-11:40	Advanced brain imaging of cortical malformations: from a focal lesion to the whole brain Seok-Jun Hong (Sungkyunkwan University, Korea)

Satellite. To be announced

Time	11:40-12:20	
Chairs	TBD	
Speakers	TBD	

Oral presentation

Time	12:30-13:30	
Chairs	Ji Hyun Kim (Korea University Guro Hospital , Korea) Dong Wook Kim (Konkuk University Hospital, Korea)	

Program Details

Hanra A (21st)

Symposium 5. The Comprehensive Epilepsy Care: what we can do for people with epilepsy?

Time	13:30-14:30	
Chairs	Seung Bong Hong (Samsung Medical Center, Korea) Dong Jin Shin (Gachon University Gil Hospital, Korea)	
Speakers	13:30-13:50	National regional collaboration project in Japan and National Epilepsy Support Center Nakagawa Enji (National center of Neurology and Psychiatry, Japan)
	13:50-14:10	Niigata Prefecture Epilepsy Support Center Masafumi Fukuda (NHO Nishi Niigata Chuo National Hospital, Japan)
	14:10-14:30	National Epilepsy Care Center in Korea Seung Bong Hong (Samsung Medical Center, Korea)
	14:30-14:50	Policy of epilepsy care and management in Korea Tong Ryeong Jeong (Ministry of Health and Welfare, Korea)

Symposium 7. Understanding epilepsy through computational modeling of brain networks

Time	15:00-16:00	
Chairs	Sung Eun Kim (Inje University Haeundae Paik Hospital, Korea)	
Speakers	15:00-15:20	Computers in epilepsy David Ko (Loma Linda VA Medical Center, USA)
	15:20-15:40	Network modeling of seizures and neuromodulation using focused ultrasound Hyang Woon Lee (Ewha Womans University Medical Center, Korea)
	15:40-16:00	Epileptic network-based prediction and control of seizures Tae Joon Kim (Ajou University School of Medicine, Korea)

Symposium 9. Disconnective surgery: video presentation

Time	16:00-17:00	
Chairs	Jong Hyun Kim (Korea University Guro Hospital, Korea)	
Speakers	16:00-16:20	Corpus callosotomy Seok Ho Hong (University of Ulsan College of Medicine, Korea)
	16:20-16:40	Multilobar disconnective surgery Won Seok Chang (Yonsei University College of Medicine, Korea)
	16:40-17:00	Functional hemispherectomy Dong Seok Kim (Yonsei University College of Medicine, Korea)

Symposium 11. Lesioning procedures for epilepsy surgery

Time	17:00-18:00	
Chairs	Hae Yu Kim (Inje University Haeundae Paik Hospital, Korea)	
Speakers	17:00-17:20	SEEG-guided RF lesioning Seung Hoon Lee (Samsung Medical Center, Korea)
	17:20-17:40	Noninvasive stereotactic lesioning: SRS and FUS Jun Hyung Kim (Asan Medical Center, Korea)
	17:40-18:00	Laser interstitial thermotherapy Hae won Roh (Korea University Guro Hospital, Korea)

Program Details

제29차 대한뇌진증학회 국제학술대회
29th KOREAN EPILEPSY CONGRESS

June 21 (Fri) - 22 (Sat), 2024
Seoul Dragon City Hotel, Korea

Hanra B (21st)

Symposium 2. Channelopathy in epilepsy

Time	8:30-9:30	
Chairs	Baik Lin Eun (Korea University Guro Hospital, Korea)	
Speakers	8:30-8:50	Overview of epilepsy and genetic channelopathy Hoon Chul Kang (Yonsei University College of Medicine, Korea)
	8:50-9:10	Therapeutic approaches to genetic channelopathies Young Ok Kim (Chonnam National University Hospital, Korea)
	9:10-9:30	Gene therapy and editing for genetic channelopathies Hyo Jeong Kim (Gachon University Gil Hospital, Korea)

Plenary lecture

Time	9:40-10:30	
Chairs	Kyoung Heo (Yonsei University College of Medicine, Korea)	
Speakers	Electroencephalography in the intensive care unit and cardiac arrest Jong Woo Lee (Harvard Medical School Brigham and Women's Hospital, USA)	

Symposium 4. New antiseizure medications with novel mechanisms for treatment of drug-resistant epilepsy

Time	10:40-11:40	
Chairs	Ki Joong Kim (Seoul National University Hospital, Korea)	
Speakers	10:40-11:00	Cannabidiol Yong D. Park (Augusta University, USA)
	11:00-11:20	Cenobamate Steve Chung (University Arizona, Phoenix, USA)
	11:20-11:40	Brivaracetam Dong Wook Kim (Konkuk University Hospital, Korea)

Satellite. To be announced

Time	11:40-12:20	
Chairs	TBD	
Speakers	TBD	

Oral presentation

Time	12:30-13:30	
Chairs	Byung Chan Lim (Seoul National University Hospital, Korea) Mi Sun Yum (University of Ulsan College of Medicine, Korea)	

Program Details

Hanra B (21st)

Symposium 6. Social perception changes regarding epilepsy and direction of support for epilepsy patients

Time	13:30-14:30	
Chairs	Won Chul Shin (Kyung Hee University Hospital at Gangdong, Korea)	
Speakers	13:30-13:50	Changes in perception of epilepsy among adolescents Song Ee Youn (Kyung Hee University Hospital at Gangdong, Korea)
	13:50-14:10	Survey of employer and coworker perceptions of epilepsy patients Su Hyun Han (Chung-Ang University Hospital, Korea)
	14:10-14:30	Long-term mission and vision for enhancing the rights of epilepsy patients Heung Dong Kim (Kangbuk Samsung Hospital, Korea)
	14:30-14:50	Panel discussion Kyoung Jin Hwang (Kyung Hee University Medical Center, Korea) Han Uk Ryu (Jeonbuk National University Hospital, Korea) Deog Su Kim (Korea Bureau for epilepsy, Korea)

Symposium 8. KES-JES 1: Pharmacogenomics and precision medicine in epilepsy

Time	15:00-16:00	
Chairs	Jee hun Lee (Samsung Medical Center, Korea) Nobukazu Nakasato (Tohoku University School of Medicine, Japan)	
Speakers	15:00-15:20	Effect of CYP2C19 polymorphisms on stiripentol administration in Japanese cases of Dravet syndrome Hitoshi Osaka (Jichi Medical University, Japan)
	15:20-15:40	Precision medicine in epilepsy, personalized antiseizure medication Seung Hwan Lee (Department of Clinical Pharmacology and Therapeutics, Seoul National University Hospital, Korea)
	15:40-16:00	Desensitization of antiseizure medication Ji Won Lee (Samsung Medical Center, Korea)

Symposium 10. KES-JES 2: Living with epilepsy

Time	16:00-17:00	
Chairs	Dong Jin Shin (Gachon University Gil Hospital, Korea) Kensuke Kawai (Jichi Medical University, Japan)	
Speakers	16:00-16:20	Driving, sports, military service in people with epilepsy Hun Min Kim (Seoul National University Bundang Hospital, Korea)
	16:20-16:40	Telemedicine in epilepsy Ayataka Fujimoto (Seirei Hamamatsu General Hospital, Japan)
	16:40-17:00	Tele-psychology to tackle psychosocial issues in epilepsy care Mayu Fujikawa (Tohoku University School of Medicine Department of Epileptology, Japan)

Symposium 12. Women's Issues in epilepsy: controversies in caring for women with epilepsy

Time	17:00-18:00	
Chairs	Eun Yeon Joo (Samsung Medical Center, Korea)	
Speakers	17:00-17:20	Valproic Acid in Pregnancy Jin Sun Jun (Department of Neurology, Kangnam Sacred Heart Hospital, Hallym University College of Medicine, Korea)
	17:20-17:40	Polypharmacy in Pregnancy Eun Kee Bae (Inha University Hospital, Korea)
	17:40-18:00	Antiseizure medications and breastfeeding Ji Ye Jeon (Kyungpook National University Chilgok Hospital, Korea)

Program Details

제29차 대한뇌전증학회 국제학술대회
29th KOREAN EPILEPSY CONGRESS

June 21 (Fri) - 22 (Sat), 2024
Seoul Dragon City Hotel, Korea

Hanra A (22nd)

Symposium 13. Puzzling cases of epilepsy

Time	8:30-9:30	
Chairs	Dae Won Seo (Samsung Medical Center, Korea)	
Speakers	8:30-8:45	Case 1. Diagnosis and treatment of patients presenting with pain as a symptom of epilepsy: navigating the challenges Dong Ah Lee (Inje University Haeundae Paik Hospital, Korea)
	8:45-9:00	Case 2. The expedition to find focality in pharmacoresistant pediatric epilepsy Dong Hwa Yang (Korea University Guro Hospital, Korea)
	9:00-9:15	Case 3 Kyoung Heo (Yonsei University College of Medicine, Korea)
	9:15-9:30	Case 4 Kyoung Heo (Yonsei University College of Medicine, Korea)

Presidential symposium

Time	9:40-10:30	
Chairs	Dong Seok Kim (Yonsei University College of Medicine, Korea)	
Speakers	Identification of epileptic network using stereoelectroencephalography Fabrice Bartolomei (Aix-Marseille University, France)	

Symposium 15. Experimental approaches to the understanding of hippocampus and epileptogenesis

Time	10:40-11:40	
Chairs	Won-Joo Kim (Gangnam Severance Hospital, Korea)	
Speakers	10:40-11:00	Hippocampus and Imagination Min Whan Jung (IBS/KAIST, Korea)
	11:00-11:20	Uric acid and seizure disorder from bedside to bench Jun Young Choi (Ajou University School of Medicine, Korea)
	11:20-11:40	TBD TBD

Satellite. To be announced

Time	11:40-12:20	
Chairs	TBD	
Speakers	TBD	

Poster presentation

Time	12:30-13:30

Program Details

Hanra A (22nd)

Symposium 17. Basic principles and usefulness of MEG in epilepsy

Time	13:30-14:30	
Chairs	Heung Dong Kim (Kangbuk Samsung Hospital, Korea)	
Speakers	13:30-13:50	Basic principles and clinical application of MEG in Korea Seung Bong Hong (Samsung Medical Center, Korea)
	13:50-14:10	MEG and epilepsy surgery Won Seok Chang (Yonsei University College of Medicine, Korea)
	14:10-14:30	LMEG-based brain mapping for epilepsy and other diseases Nobukazu Nakasato (Tohoku University School of Medicine, Japan)

Symposium 19. New insights on epileptogenesis and therapeutic discovery from bench to bedside

Time	14:30-15:30	
Chairs	Sookyong Koh (University of Nebraska , USA) Nobukazu Nakasato (Tohoku University School of Medicine, Japan)	
Speakers	14:30-14:50	Zebrafish EEG predicts the efficacy of antiseizure medications So Hee Kim (DGIST, Korea)
	14:50-15:10	The role of animal models in drug repurposing for developmental and epileptic encephalopathies Min Jee Kim (University of Ulsan College of Medicine , Korea)
	15:10-15:30	Is there a promise of precision medicine using current gene editing therapies for developmental and epileptic encephalopathies A Ra Ko (Yonsei University College of Medicine, Korea)

Symposium 21. Seizures and epilepsy in autoimmune encephalitis

Time	15:40-16:40	
Chairs	Kon Chu (Seoul National University Hospital, Korea)	
Speakers	15:40-16:00	Incidence of seizures and risk of epilepsy in autoimmune encephalitis Kon Chu (Seoul National University Hospital, Korea)
	16:00-16:20	Clinical and electroencephalographic features of epileptic seizures in autoimmune encephalitis Woo Jin Lee (Seoul National University Bundang Hospital, Korea)
	16:20-16:40	Management and long-term outcomes of epileptic seizures in autoimmune encephalitis Jun Sang Sunwoo (Kangbuk Samsung Hospital, Korea)

Symposium 23. A critical reappraisal of psychogenic non-epileptic seizures

Time	16:40-17:40	
Chairs	Sung-Pa Park (Kyungpook national university hospital, Korea)	
Speakers	16:40-17:00	Freud and psychogenic non-epileptic seizures David Y. Ko (Loma Linda VA Medical Center, USA)
	17:00-17:20	Electroencephalographic and imaging features of psychogenic non-epileptic seizures Seong Hoan Kim (The Catholic University of Korea, Uijeongbu, Korea)
	17:20-17:40	Proper management of psychogenic non-epileptic seizures Woo Jun Kim (The Catholic University of Korea, Korea)

Program Details

제29차 대한뇌전증학회 국제학술대회
29th KOREAN EPILEPSY CONGRESS

June 21 (Fri) - 22 (Sat), 2024
Seoul Dragon City Hotel, Korea

Hanra B (22nd)

Symposium 14. Controversies in status epilepticus: treat aggressively or not?

Time	8:30-9:30	
Chairs	Jae Moon Kim (Chungnam National University Hospital, Korea)	
Speakers	8:30-8:45	NCSE in critically ill patients should be treated aggressively Young Soo Kim (Gyeongsang National University Hospital, Korea)
	8:45-9:00	NCSE in critically ill patients should NOT be treated aggressively Sung Chul Lim (The Catholic University of Korea, ST. Vincent's Hospital, Korea)
	9:00-9:15	Focal-aware SE should be treated aggressively Young Soo Kim (Gyeongsang National University Hospital, Korea)
	9:15-9:30	Focal-aware SE should NOT be treated aggressively Sung Chul Lim (The Catholic University of Korea, ST. Vincent's Hospital., Korea)

Presidential symposium

Time	9:40-10:30	
Chairs	Dong Seok Kim (Yonsei University College of Medicine, Korea)	
Speakers	Identification of epileptic network using stereoelectroencephalography Fabrice Bartolomei (Aix-Marseille University, France)	

Symposium 16. Clinical correlates of interictal epileptiform discharges

Time	10:40-11:40	
Chairs	Oh Young Kwon (Gyeongsang National University Hospital, Korea)	
Speakers	10:40-11:00	Epilepsy diagnosis and syndromic classification Jin Hwa Moon (Hanyang University Medical Center, Korea)
	11:00-11:20	Seizure intractability and drug response Ji Yeoun Yoo (Icahn School of Medicine at Mount Sinai, USA)
	11:20-11:40	Cognitive and behavioral consequences Bo Lyun Lee (Inje University Busan Paik Hospital, Korea)

Satellite. To be announced

Time	11:40-12:20	
Chairs	TBD	
Speakers	TBD	

Poster presentation

Time	12:30-13:30	
-------------	--------------------	--

Program Details

Hanra B (22nd)

Symposium 18. New horizons in epilepsy research utilizing SEEG

Time	13:30-14:30	
Chairs	Jin Woo Chang (Korea University Anam Hospital, Korea)	
Speakers	13:30-13:50	New landscape of epilepsy surgery: SEEG guided, less invasive surgery and neuromodulation Young Min Shon (Samsung Medical Center, Korea)
	13:50-14:10	Responses to unexpected sound omissions in human auditory cortex: ECoG and SEEG studies Hoh Yun Cho (Washington University School of Medicine in St. Louis, Missouri, USA, USA)
	14:10-14:30	Usefulness of SEEG in epilepsy surgery: experiences in Nishiniigata Chuo Hospital Masafumi Fukuda (Nishi Niigata Chuo National Hospital, Japan)

Symposium 20. Promising treatment modality of Lennox-Gastaut syndrome

Time	14:30-15:30	
Chairs	Tae Sung Ko (University of Ulsan College of Medicine , Korea)	
Speakers	14:30-14:50	EPIDIOLEX® (cannabidiol), an FDA-approved drug for Lennox-Gastaut syndrome Yong D. Park (Augusta University , USA)
	14:50-15:10	Corpus callosotomy and vagus nerve stimulation for Lennox-Gastaut syndrome Joo Hee Seo (AdventHealth for Children, USA)
	15:10-15:30	Deep brain stimulation of thalamic centromedian nucleus for Lennox-Gastaut syndrome Hyun Mi Kim (Stanford University, USA)

Symposium 22. Overcoming refractory status epilepticus: clinical perspectives and preclinical animal model

Time	15:40-16:40	
Chairs	Mi Sun Yum (University of Ulsan College of Medicine , Korea)	
Speakers	15:40-16:00	Challenging clinical situation in refractory status epilepticus: NORSE Ji Yeoun Yoo (Icahn School of Medicine at Mount Sinai , USA)
	16:00-16:20	Challenging clinical situation in refractory status epilepticus: FIRES Joon Won Kang (Chungnam National University Hospital, Korea)
	16:20-16:40	Preclinical models of NORSE/FIRES: how and why Sook Yong Koh (University of Nebraska , USA)

Symposium 24. Cognitive comorbidities in epilepsy: epidemiology, mechanism, and potential therapies

Time	16:40-17:40	
Chairs	Byung Chan Lim (Seoul National University Hospital, Korea)	
Speakers	16:40-17:00	Epidemiology of cognitive comorbidities in epilepsy Sun Ah Choi (Ewha Womans University Medical Center, Korea)
	17:00-17:20	Interictal epileptiform activity and cognitive comorbidities: intracranial EEG study Woo Joong Kim (Seoul National University Hospital, Korea)
	17:20-17:40	Deciphering epilepsy-associated comorbidities through hippocampal neurogenesis Kyung Ok Cho (Catholic University, Korea)

Abstract Submission Guideline

- Abstracts must be submitted via the website only
(https://www.kes.or.kr/edu/abstract_submission_gate.html?num=46)
- Please prepare abstracts according to the instructions on the website.
- For any inquiries or questions, please contact to KES secretariat's office by e-mail only
(koreaepilepsy@kes.or.kr)

Abstract Topics for Oral Presentation and Poster/Case Report

Clinical Epilepsy	Pediatric Epilepsy	Epilepsy Surgery
Genetics	Neuroimaging	Antiepileptic Drug
Basic Research	EEG	Quality of Life
Psychiatric Comorbidity	Others	

Abstract Format

1. Abstracts should be structured as follows: Title, Author's Name and Affiliation, Country, Purpose, Methods, Results, and Conclusions
2. The title must be less than 30 words.
3. The main body of abstracts must not exceed 300 words.
4. The words in the title and author's information do not count toward your total word count.
5. The maximum number of authors is 10 per abstract.
6. No tables and images are allowed.
7. Abstracts should be typed in English.
8. When you submit your abstracts online, it will be automatically edited according to the designated format.

* All submitted abstracts will be reviewed by the Scientific Program Committee according to the standard review procedures. Notification of acceptance will be sent by e-mail to presenting and abstract submitting authors by **June 15, 2024**.

Call for Abstracts

Poster Presentation Notice

** Guideline for the poster presentation

1. The poster should be on display during the Congress which will be held from June 23 to June 24.
2. The poster must be set up before the poster Session starts at the provided time above.
3. Materials will be provided for affixing posters to the poster boards at the session place.
4. The posters must be removed after the last session on June 24. Please note that the secretariat does not take any responsibility for unclaimed posters.
5. The poster presenter must be available to answer questions at the poster during the session. In addition, there will be guided tours of posters, led by chairs.
6. Please note the poster's dimensions as below :

** Maximum dimensions of the poster board : Width = 90cm. Height = 120cm

TITLE
Author and Institution
TEXT / Illustration / Figures / etc. here
Maximum dimensions of the poster board : Width = 90cm. Height = 120cm (Actual board size is 100cm*200cm)

How to register

Online Pre-registration Deadline: **May 31, 2024**

Online pre-registration is highly recommended at the congress website.

If online registration is not available, please contact the secretariat at koreaepilepsy@kes.or.kr

Registration Fees

Registration	Category	Fee
Online Pre-registration	Physician	USD 100 (100,000 WON)
	Resident	USD 30 (30,000 WON)
	Technician	Free
	Nurse	Free
	Researcher	Free
	Invited speaker	Free
On-Site Registration	Physician	USD 120 (120,000 WON)
	Resident	USD 50 (50,000 WON)
	Technician	Free
	Nurse	Free
	Researcher	Free
	Invited speaker	Free

* Registration fee for regular participants includes:

- Participation in scientific sessions
- Entrance to the exhibition
- Lunch
- Congress kit
- Coffee breaks

Registration

Payment Method

All fees should be paid using wire transfer only.

Wire Transfer

- The sender's name should be the registrant's name.
- A copy of the bank remittance receipt should be sent to the secretariat email.
- Please ensure the registrant's name is on the bank remittance receipt.

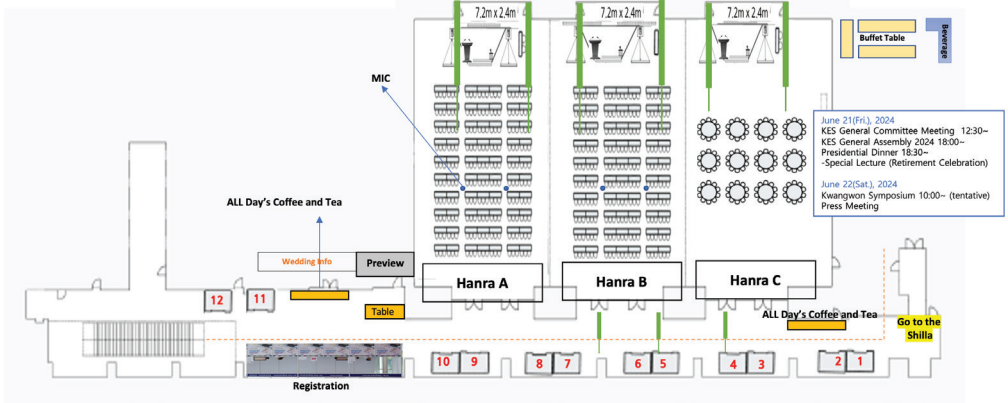

Name of Bank	Hana bank
Account No.	135-910011-42505
Beneficiary	The Korea Epilepsy Society
Bank Address	53, Hallimnal-gil, Seongdong-gu, Seoul, Republic of Korea
