

Prof. Hasan Aziz is credited with initiation of general neurology in Pakistan forty years ago with focused war on epilepsy for the last 25 years. He has trained sixty neurologists who now are part of the volunteer force of the NGO doing intensive efforts to increase public awareness, provide near-home care facility, Continued Medical Education of family physicians and most importantly change the nation's mindset towards People with Epilepsy. Pakistan's model of epilepsy-care covers the entire country and can claim success with the AED market having grown by more than 480% in the last ten years. Prof. Aziz's dream of building The National Epilepsy Centre at Karachi for holistic management of epilepsy for the poor and the underprivileged has been achieved. Under one roof it provides state of the art diagnosis, investigations, antiepileptic drugs at token cost of 8% of the actual.

Prof. Aziz is the Executive Committee Member and immediate Past President of the Epilepsy Association of Pakistan. Over the last twenty five years has served on various ILAE Commissions. Presently he is a member of the Commission on Asian and Oceanian Affairs, which honoured him with the Outstanding Achievement Epilepsy Award in 2010.
