Welcome

Dear Colleagues and Friends,

On behalf of the Neuropsychology Task Force of the International League Against Epilepsy, we are pleased to announce the second ILAE Training Course in Neuropsychology in Epilepsy, which will be held from 15th – 20th April 2018.

Set in the beautiful location of Provence, the course is designed for neuropsychologists and other epilepsy health clinicians to advance their knowledge of neuropsychological approaches to the diagnosis and treatment of people with epilepsy.

Participants will take part in lectures, case presentations, and discussions designed to illustrate principles of differential diagnosis and case formulation in neuropsychological practice in epilepsy and epilepsy surgery. Course material will be presented by an international faculty made up of the clinicians who are at the forefront of evidence based practice in this field.

With strictly limited numbers and full board accommodation on site, the course provides unparalleled opportunities for participants to build lasting professional networks to support both their clinical and research endeavors on completion of the course.

We hope you can join us, and look forward to welcoming you in Provence.

Sarah Wilson

Sallie Baxendale

Core Course Faculty

Sarah Wilson (Melbourne)

Sallie Baxendale (London)

Gus Baker (Liverpool)

William Barr (New York)

Christoph Helmstaedter (Bonn)

Registration

Please register in advance as spaces will be limited to 30 participants. On-site registration is not available.

To be considered, applications must be received by **31st December 2017**. We urge that you apply as soon as possible to reserve your spot and avoid disappointment.

Applications should include a brief description of your current clinical practice and experience in the field of neuropsychology and/or epilepsy, accompanied by a short CV (no more than 3 pages).

Please send your application via email to Dr Sallie Baxendale s.baxendale@ucl.ac.uk. Full payment is not required with the application but will be due by February 2018.

Registration fee: 1,500 Euros

This fee covers the cost of all teaching, course materials, five nights all inclusive, full board accommodation and transfers to and from the venue from the major air and rail travel hubs close to the venue.

Some full and partial bursaries are available for clinicians working in resource poor countries. Please indicate in your application if you would like to apply for a funded place.
